REPORT OF THE SUPERINTENDENT OF SCHOOLS

Wells, Maine, February 1, 1942

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The school census of April 1, 1941, showed there were 495 boys and 450 girls, a total of 945 persons between the ages of five and twenty-one years in the Town on that date. There were 559 enrolled in the schools at the opening of the fall term, as the following table shows:

Several changes occurred in our list of teachers for this year. Miss Sylvia Poor was selected as teacher of Domestic Arts in the high school to succeed Miss Whiteley, who is taking a year of advanced work at some institution outside the state. Miss Barbara Allen was elected to teach in the primary room at Division 2, replacing Miss Buck, who resigned at the end of the school year.

During the summer vacation Miss Ida McKeen, Mrs. Roselyn Garland, Miss Phyllis Barstow and Mr. Arden Tarbox resigned, some of them to retire from teaching and others to enter other kinds of work. Mr. Ralph Dodge was hired to fill the vacancy in the grammar room at the Ogunquit School and the other positions were filled by Mrs. Lois Studley, Mrs. Helena Rode and Mrs. Robie Littlefield as substitute teachers. All the last named are teachers of experience and have assumed their work with a minimum of lost effort.

In January, Mr. Adams was called into the service and Mrs. Beuda Edwards was his successor. Mrs. Edwards is a teacher of long, successful experience and her work has been of high quality in the school at Wells Corner.

The usual repairs have been carried out in all the schools. In addition to interior painting at Division 5, the interior at Division 14 was refinished, also the interior at Division 1. At Division 16 it was necessary to rebuild the entrance porch before that school and paint it. For next year, some reshingling and outside painting will be necessary.

This year, after consultation with Miss Perkins, it was decided to omit the report of the music supervisor in order to cut expense. Another year the highlights which she may wish emphasized may appear as a part of my report.

I am glad to report, again, balances in the school accounts although they are not large, but increased costs make budget estimating especially difficult in these times.

May I express my appreciation of the work of the teachers and members of the school committee and my thanks to all citizens who have assisted us in our work.

Yours respectfully,

JOHN S. CARVER.

REPORT OF PRINCIPAL OF WELLS HIGH SCHOOL

Superintendent John S. Carver:

The school year opened with an enrollment of one hundred and thirty-five pupils. This was the smallest opening enrollment for several years, probably due to increased work opportunities as a result of the defense program. The enrollment by classes was as follows: Seniors, 27; Juniors, 26; Sophomores, 41, and Freshmen, 41.

The Classical, Scientific, Manual Arts, Home Economics, Commercial and General Courses are offered this year. The majority of the boys are enrolled in the Manual Arts course, and the largest number of girls are enrolled in the Commercial course.

Only one change in the high school faculty was made this year. Miss Sylvia Poor has replaced Miss Evelyn Whiteley as teacher of Home Economics. Miss Poor is coach of girls' basketball in addition to her regular duties.

A large proportion of last year's graduating class are continuing their education in schools of advance standing. Members of this class are enrolled at the University of Maine, Bowdoin College, Colby College, Gorham Normal School, Hebron Academy, Fryeburg Academy and MacIntosh Business College.

The School Band is making excellent progress. Last May it won the award for the best rating of any band in class "E" at the festival in Portland. There are at present thirty-one members in the band. New uniforms have been ordered, and are to be worn for the first time at the Band

Concert scheduled for February 13th. May I take this opportunity to thank the parents and citizens of the town for their generous and whole-hearted support in making the band a success. This is one of the most valuable of school activities.

All members of the faculty, Mr. Freeman, and the bus drivers have worked whole-heartedly to make this year a success, and their cooperation is greatly appreciated.

I wish to thank the citizens of the town of Wells, the superintending school committee, the superintendent of schools, the teachers, and pupils for their cooperation in making 1941-42 a highly successful year, and I trust the same harmony may continue to exist in the future.

Respectfully yours,

AURA W. COLEMAN, Principal.

MANUAL TRAINING

Superintendent John S. Carver:

The Industrial Arts Course began its fifth year with 49 of the school's 64 boys enrolled, making more than 76 % of the boys in school taking shop work.

As in the past two years, Mechanical Drawing instruction was given during most of the Fall term, with the first and second year students doing plain and orthographic drawings and the third year group doing machine drawings.

We were fortunate to be able to add to our equipment a Machine Lathe, which is used to turn metal. This lathe has twelve speeds, 30 to 1,450 R. P. M., has longitudinal and cross feeds, and can cut threads, both left and right hand, from 4 to 64 per inch. The capacity is 9-inch swing and 24-inch between centers. With this piece of equipment it is possible to give the boys an opportunity to have a knowledge of the fundamentals of working metal. In line with the present emergency, we are trying to do our bit toward preparing boys to be better able to step into jobs which demand a knowledge of some various materials of industry.

For the fifth consecutive year, I am still happy to be able to report that we have not had any serious accidents with either the hand or power tools.

For the excellent cooperation that I have had from everybody interested in the schools of the Town of Wells, I say very sincerely, "Thank You," for success, without co-operation, is difficult to achieve.

Respectfully submitted,

MONROE BEAN.

COMMERCIAL DEPARTMENT

I hereby submit my report for the Commercial Department, 1941-1942.

The Commercial Department thus far this year has shown a great deal of enthusiasm. I find again that the students are most interested in working for the awards offered by the Southwestern Publishing Company and the Gregg Publishing Company of New York.

The Bookkeeping group is doing some very good work this year, this is due, I believe, to the large "Proficiency Certificate" which is to be awarded again to those people receiving a "B" average.

The advanced shorthand group is progressing rapidly.

10 Girls have received the Jr. O. G. A. Pin.

5 60-Word Transcription Certificates.

3 80-Word Transcription Certificates.

As of previous years, the goal is the 120-word Gold Pin.

Both classes in shorthand have entered the Nationwide Order of Gregg Artists Test, sponsored by the Gregg Company. Last year's group qualified and a large certificate was received in June. I was very proud of this certificate as it proves, without a doubt, that with something to work for a goal can be reached.

The Budget Letter Writing is now in progress. These letters are to be perfect in every detail with an original cover to be made on the typewriter.

The groups are again planning to hold an exhibition of their year's work at the end of the school year.

Two new courses have been introduced this year. The first semester Salesmanship. The general purposes of the course are:

1. It gives the student the training which will be of some value on completing the course.

2. It gives the student the training which he can use while still in school, that is, in the selling of subscriptions to school publications, advertising space in the publications, tickets to athletic and social events, etc.

3. It makes the student a more efficient workman. This applies particularly to farm boys and girls who are called on to sell occasionally from roadside stands, and to those who enter trades which require some selling.

4. It takes up the general principle of selling which is also applied to sales-letters, advertising and how to obtain a position.

5. It shows how the student can develop personality and last, but not least, to set high ethical standards in selling.

The second semester is spent on Consumer Economic Problems.

The following is a brief classification of the specific consumer problems covered in this course:

1. Earning a living.
2. Budgeting and planning.
3. Saving.
4. Investing part of the savings
5. Acquiring protection thru insurance.
6. Borrowing and other financial relations.
7. Buying and spending.
8. Providing a home.
9. Practical business relations.

There is no other course in the curriculum that offers such great opportunities to integrate and to correlate the various business and consumer principles that should be understood by everyone.

In closing I wish to express my thanks to Mr. Carver, the School Committee and all those who have cooperated so willingly in making this department a success.

Respectfully submitted,

ELAINE DSAKIS., Commercial Teacher.

REPORT ON HOME ECONOMICS

Superintendent John S. Carver:

The school term opened with an enrollment of forty-one students in the Home Economics course.

The Freshmen started with eighteen weeks of food preparation. The work was planned so that the complete meal was prepared, served and eaten. The unit included breakfasts and simple luncheons.

The Home Nursing and First Aid unit came in the next six weeks. This included the complete care of the sick in the home and the treatment of minor cuts and accidents.

The remaining twelve weeks were spent in clothing. During this unit the students will learn the fundamental stitches, the use of the sewing machines and making a simple garment to wear.

The Sophomores began the term with eight weeks of Food Preservation. At this time this seemed to be most important to emphasize. The next ten weeks were spent in the planning of nutritious meals for a week, the treating of disease by diet and the principles for making cakes, cookies, candy, breads and more economical meats.

The next six weeks were spent in the study of Child Care. This included the behavior problems and the development of the small children. We are fortunate to have the sub-primary children to observe at play.

The last twelve weeks were spent in clothing. The girls made more difficult problems and learned the principles of knitting.

The Juniors and Seniors took quite a bit of time in clothing. They made either a wool suit or dress, renovated a garment, and learned to use the machine attachments.

The next six weeks were spent in consumer buying. This unit was not only a guide for buying and caring for personal things but also household equipment.

The last twelve weeks were used in the study of food purchasing, more advanced nutrition and food preparation.

I wish to thank all of those who have cooperated with me to make this department so successful.

Respectfully submitted,

SYLVIA POOR.

All corrections completed.	

All children enrolled at opening of Fall term have been inspected, and, with a few exceptions, those who have been enrolled later during the year. We have been fortunate that no serious epidemic has interfered with attendance. Several cases of contagious diseases have developed in the various schools, but, with splendid cooperation, these have not proved serious. The infectious conditions of Pediculosis and Impetigo have been rather troublesome, more children being infected than in the previous four years, possibly due to the continually changing school population.

The pre-school clinic held in June for the children expecting to enter school for the first time in September was most successful. Twelve children were given physical examinations by a physician, defects noted, and arrangements made that corrections might be made before school opened. Miss Gladys Marble, nutritionist for the York County Farm Bureau, assisted at the clinic by suggestions concerning diet, according to the recommendations made by the examining physician. As a result of this conference, defective tonsils were removed, orthopedic corrections made, dental work cared for, children vaccinated against smallpox and given immunization treatment against diphtheria.

Earlier in the Spring term, toxoid clinics were held at the various schools and children were given the two-dose diphtheria immunization. The children who had received the treatment two years ago were skin tested to determine how many had received the desired protection.

In April, thirty hours were spent in taking a Red Cross First Aid Instruction Course. Since that time two classes have been instructed and three more are well underway in preparation for Civilian Defense. A Home Nursing Course, under the instruction of Mrs. Ida Coleman, R. N., has been started, and plans for a Nutrition Course are developing.

Each year the work changes, according to the needs and response of the community, and this year it has seemed vital that instruction for the protection of community as well as the individual be considered.

I wish at this time to thank those who have helped to make this a successful year, the School Committee, the Selectmen, the officers of the Wells Health Association, American Legion, Legion Auxiliary members, the doctors, teachers, Farm Bureau members and all who have shown their interest in the work that we were trying to do.

REPORT OF
OCEAN VIEW CEMETERY CORP.

In view of the fact that the Town has appropriated money for several years for the care of the Soldier's Monument located in Ocean View Cemetery and for the World War Monument located at Wells Corner, and since these appropriations have, in many instances, been turned over to the Cemetery Corporation to be expended under its supervision and management and since many taxpayers are interested in the welfare of the Cemetery Association, the Officers feel that some sort of a report should be made to the Town.

It has been our purpose for several years to seek to build up an organization in which the public will have the utmost confidence. It was thought at one time that it would be wise to ask the town to be custodian of trust funds deposited with the Corporation but after careful consideration it was felt that the management and responsibility should rest with the officers of the Corporation. However, it has been the opinion of these officers that the financial standing of the Corporation should be made public each year through the medium of the Town Report. This opinion is based on the very fact that the Town does appropriate money which is handed over to the Corporation, and it is, therefore, interested in the expenditure of those funds.

It is hoped that the practice of making an annual report will be continued in the future and that it will meet with the approval of the taxpayers and all interested. It is with this in view that the first report of this kind is respectfully submitted by Ocean View Cemetery, Inc.

---------------------------------	-------

Our cemetery is one of the best in that the high ground and deep gravel sub-soil provides drainage that keeps the standing water level far below any depth employed by the service required. However this desirable features makes for a surface that needs irrigation in dry weather. We expect to provide increased service in this respect as our income increases.

The above assets have accumulated since reorganization of the Association in 1930. It is expected that in another decade the invested funds of the Association will each year provide dividends ample to start a program of extensive improvement and beautifying of the cemetery.

Respectfully submitted,

J. P. LITTLEFIELD,

Treasurer.

In Memoriam

The passing of Selectman, Edwin R. Clark on the eve of our Annual Town Meeting is, indeed, a severe shock to our whole Community. It is difficult for those of us who enjoyed close and intimate relations with him to believe he is gone from us. His buoyant personality, his enthusiasm to live and be of service to his town were manifest to the very last. His active interest in Town affairs is shown by the fact that he served us at different times for nine years. A man of excellent character, fair in the administration of public problems, devoted to duty and always willing to aid and serve his fellow townsmen. In his passing the town has lost a faithful public servant. It is hard to think of him as silent and inactive. His memory will long be with us and history will record that here is a man who could be called a neighbor and a friend to all mankind. Let it be remembered that,

"To live in the hearts we leave behind,
is not to die."

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Wells, Maine, February 1, 1943

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the School of Wells.

The school census of April 1, 1942, showed there were 473 boys and 458 girls, a total of 931 persons between the ages of five and twenty-one years in the town on that date. There were 552 enrolled in the schools at the opening of the fall term, as the following table shows:

We have had our usual number of changes in our teaching force including many transfers. Mrs. Perkins, Miss Bragdon and Mrs. Rode were moved to Division 5, Division 2 and Division 4 respectively. Miss Mary Raynes was selected for the upper intermediate room at Ogunquit, Mrs. Leona Sayward for Division 6, Mrs. Gertrude Clark for Division 16, Mrs. Vivian Lowe for the vacancy at Division 1, and Miss Catherine Hanson for the school at Division 3.

Mr. Coleman resigned as principal of the high school and Mr. Thomas Maynard was elected to succeed him. We were sorry to lose Mr. Bean as our manual training teacher, but our good wishes go with him in his service to the country. After many attempts to replace Mr. Bean it was finally necessary to give up the manual training course for the present.

In addition to the regular replacements and repairs the building at Ogunquit was given two much needed coats of paint. For the next year we have the expense of converting the heater at the high school from oil to coal. No estimate of the cost has been obtained but the amount is sure to be fairly large.

It should be noted that the financial report does not represent the expenditures of a full school year of 36 weeks. Due to the shifting calendar our report covers expenses for only 35 weeks.

In these trying times may I call attention to the greatly increased demand on the teachers' energies. Many defense workers have moved to this town and the adjustment of each child from those families calls for patience and an

excellent understanding of children and the requirements of the various grades. In addition to this, the rationing of necessary foods and fuels has been delegated largely to the teachers. I am confident that the teachers appreciate the need for rationing and as a group are willing and eager to do their part during this national emergency.

I wish to thank all the teachers who have helped to carry on the work of the schools in these difficult times and to express appreciation to the school committee for its assistance and to all citizens who have helped in the work of the schools.

Yours respectfully,

JOHN S. CARVER.

REPORT OF PRINCIPAL OF WELLS HIGH SCHOOL

Mr. John S. Carver
Superintendent of Schools

Dear Sir:

Wells High School opened this past fall with a total enrollment of 123 students and six teachers, the only new member of the staff being the principal. The manual arts department was not available to the pupils since Mr. Bean, the teacher, had been drafted into the army during the past summer and no successor has yet been found. Outside of manual arts, approximately the same curriculum as last year was offered. The only exception to this is the added—and very thorough—pre-induction mathematics instruction given by Miss Weymouth.

Extra-curricular activity so far has included—in inter-scholastic sports, six-man football, and boys' and girls' basketball, with a possibility of some baseball next spring. Miss Poor is coaching girls' basketball, and the team at the present writing has won eight of the nine games played and is undefeated in the league, the best showing Wells High girls' team has made in many years, if not ever. The boys' football and basketball teams are coached by the principal. Their records are poor although most of the athletes are underclassmen and should show improved results next year. Baseball will be handled by Mr. Littlefield. Travel has been difficult because of gasoline rationing, but most of the schedules have been completed to date.

The school band played at the December home basketball games and added greatly to the entertainment. In January the band combined with the Kennebunk High musicians in a joint concert at the latter's town hall where Mr. Firth's pupils presented a finely-played program. The

return joint concert in Wells is planned for March, rationing permitting.

The annual school play is scheduled to be put on in the spring, but again because of gasoline rationing, it is only a possibility.

Defense stamp sales have been carried out each Wednesday, and more than \$800 worth of stamps or bonds had been sold by the end of the first half-year.

The school's moving-picture machine has been put to good use in both the educational and entertainment fields. Mr. Littlefield is advisor of the student program committee.

The Junior Red Cross under Miss Dasakis' supervision has been active this year.

In the first few weeks of the fall, the students broke all records in their annual magazine-selling program.

The only school party held this year was the "Freshman Reception."

A scrap collection was made by the students as their part in the national effort last fall.

Two particularly interesting experiments were begun this year. Both appear successful at present. One, a new cafeteria, system, has made it possible for students to buy hot lunches very reasonably, with a small profit as well for various school activities. Mrs. Carl York was hired to take charge of the cafeteria, and Miss Poor and her student assistants have done a fine job in bringing success to the venture. Miss Hamilton supervises the lunch ticket sales. The rest of the faculty is included in individual duties that add to the working out of the plan.

The school financial records are being supervised by Miss Dasakis, Freda Winn, the students' representative, and by the principal. Miss Winn deserves much credit for the fine detailed work she is doing.

This system, thus far, has proved most satisfactory, as a triple check is made each fiscal period.

The other above-mentioned experiment is the new state physical fitness plan which was begun directly after the Christmas holidays. Dr. Chase and Dr. Gerald Smith

of Ogunquit donated their services in giving strict physical examinations to the students. The laboratory analyses were done in our own building by Mrs. Wormwood, the school nurse, and by Miss Weymouth. Too much praise cannot be given all these people for the hard work and long hours above and beyond their line of duty that they put in for the benefit of our students. The people of Wells should be proud of this kind of spirit.

The school program was then arranged to give all pupils who were found fit, a chance to take an hour's physical training at the end of each day—within the school time.

The school department has bought two gymnasium mats. The school has purchased some climbing rope, and other equipment picked up here and there is utilized. In spite of the lack of heat in the gymnasium, the students show interest in the work and seem to have improved generally in strength and endurance. When weather conditions permit, most of the work will be done out of doors. Miss Poor and the principal are in charge of the program. Student leaders, notably Eleanore Hayes and Clara Beyea, have done excellent work.

With many handicaps of transportation, fuel and food rationing, all people concerned have shown a fine willingness to help. The school is attempting to put together as much of our basic teaching schedule as possible, plus extra mathematics work, a new physical fitness program, a co-operative cafeteria system, and such interscholastic sports programs as transportation will permit.

Only a strong spirit of teamwork among students, faculty, other school officials, and townspeople could bring the success we have thus far enjoyed—and with such group unity, it is a pleasure and an honor to face whatever school problems the future may hold.

Respectfully yours,

THOMAS L. MAYNARD

Principal.

COMMERCIAL DEPARTMENT

To Superintendent John S. Carver:

I wish to submit my report for 1942-1943.

The Commercial Department began its fourth year with more enthusiasm than ever before. I believe possibly this is due to the fact that there is something to work for.

The government offers great opportunity to young people who have knowledge of stenography typewriting and filing.

The first year shorthand group is one of the most outstanding groups I have ever had. I think the reason for this is, that there are several senior girls who would like to be prepared to take the tests given by the government, having only one-year of the typing and shorthand. These people are spending from two to three hours on home assignments each day.

Typewriting is now open to the sophomore group, and the majority of these people spend a great deal of extra time typing to gain speed as well as accuracy, as the problem of typewriting is more a matter of physical or muscular control, of which the immediate aim of practice is the development of rapid and accurate finger action.

This year also finds something new added, that is, each period during the day and before school, there is a secretary assigned to the principal. These girls have received actual office training as they take dictation, type manuscripts, keep records etc., this tends to make each and every one of them more confident, because this is what will confront them when they actually obtain jobs. I know they have enjoyed this, and Mr. Maynard has given an excellent report of their work.

The school weekly paper is published mainly by commercial students and is being typed and mimeographed by first-year typists.

I would like to thank publicly all those students who have given up study time to help me in my department.

I also want to thank you, Mr. Carver, the School Committee, Mr. Maynard and all those who have made this a most successful year.

Respectfully submitted,
ELAINE DASAKIS.

REPORT ON HOME ECONOMICS

To John S. Carver, Superintendent of Schools:

The fall term started with 39 girls, of the 69 in school, enrolled in Home Economics. This is about 57 per cent. There was also one boy.

The general outline for the course given has been about the same as last year. The emphasis within the course has changed.

The Freshmen and Sophomore groups each spent eighteen weeks studying foods. This seemed to be the most important at this time. The greatest difficulty was that by the end of the eighteen weeks what we had learned in the fall seemed to be changed. The Sophomores had studied labels on cans to help better buymanship. In January we were wondering what to use instead of any canned foods.

The Child Care course for the Sophomores was studied with emphasis on caring for children as a group. These girls may be called on to help in Nursery or day schools. They will have had a little practical help from working with children in the sub-primary.

The clothing work requires more thought because the material is more limited than usual. This will mean more care in buying and better care after making.

The Junior and Senior group have broken from the regular schedule to do Red Cross sewing. Their regular schedule included Family Relationships and Home management. The problem here was how to improve or strengthen what we have now.

The Home Economics course this year is trying to help in the present emergency where needed, whether directly or indirectly.

I wish to thank everyone who has helped to make this department successful.

Respectfully,

SYLVIA POOR

Parents are being notified of defects and being referred to physician.

Each year the duties of the nurse change somewhat, and new duties are found. This year much time has been spent on Civilian Defense, and preparations for emergency care.

In conjunction with the Red Cross and the Civilian Defense, a Casualty Station has been arranged at the Nurses' Office with as nearly complete Operating Room set up as possible. Stretchers, sterile goods, bandages, gauze, abdominal pads, sponges, binders, sutures, table covers, surgical gowns for operating use; materials for preparing emergency formula and everything necessary for delivery and care of newborn baby. The rooms are blacked out and equipment for emergency lighting ready in case of necessity. In another room there are cots and a crib, blankets and pillows ready for use, both rooms near to toilet facilities, and running water. At each Air Raid Alarm two "First Aiders" two Motor Corps Drivers, a Physician and Nurse report to this office.

First Aid Emergency Kits have been prepared for the Air Raid Wardens, which may be fastened to their belts, these contain scissors, bandages, iodine, rolled bandages, two triangular bandages, sterile compress and burn ointment.

Neighborhood groups, Girl Scouts and members of the Ogunquit Red Cross made up the dressings and pads, and rolled the bandages, which were sterilized at the Webber Hospital without charge. The emergency kits were made by the Ladies' Aid of both Congregational churches.

Instruction has been given in First Aid to four groups, forty four completing the Standard course as under the American Red Cross. Arrangements were made for a class in Home Nursing, which was taught by Mrs. Ida Coleman R. N., and still other classes which were a combination of both First Aid and Home Nursing.

The School Inspections have been completed as usual with excellent cooperation from the teachers and parents. Corrections have been satisfactory, and the response to the Immunization clinics most gratifying. Parents are realizing the necessity of reporting Contagious Diseases if the contagion is to be controlled that other children may be protected before exposure to the disease.

The complete physical examination of the high school pupils was requested by the State Departments of Health and Education. Taking into consideration the distances to be traveled, the gasoline situation, and the number of physicians available, it was decided to offer free examinations at the Nurses' office by Dr. Gerald Smith and Dr. Francis Chase for any that wished to take advantage of the offer. All but five responded to this arrangement. The examination included weighing, measuring, hemoglobin count, blood pressure, spine, heart, lungs, throat, ears, nose, eyes, skin, vision and hearing, and examination of urine. Several students assisted with the clerical work and Miss Weymouth assisted with the laboratory examinations.

In November, just previous to the physical examinations, Tuberculin tests were given to the children in the seventh and eighth grades, and high school, to contacts and several

others requested by the physicians. The high school students were urged to have the test if they had not previously had the test within two years. Several reacted but all proved negative on X-ray. Knowledge of a tendency toward Tuberculosis will however make that individual conscious of a need of keeping in good physical condition, and not allowing a run down condition to go unchecked.

May I express my appreciation to all who have helped in any way during the past year to make the nurse successful, the ladies that have given so generously of their time in making dressings and the Emergency Kits, the members of the Red Cross Units both at Wells and Ogunquit, the teachers, the School Board, Mr. Carver, the Selectmen, Dr. Chase, Dr. Smith and the Nursing Committee.

Respectfully submitted,

AUDITOR'S REPORT

Portland, Maine

February 20, 1943

TO THE INHABITANTS OF THE TOWN OF WELLS:

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the town of Wells for the year ended February 6, 1943.

The financial standing of the town as shown by the comparative balance sheet was correct as of that date to the best of my knowledge and belief.

The following schedules and exhibits were prepared from your town records.

COMMENTS AND RECOMMENDATIONS**CASH:**

All cash receipts as reported have been accounted for. The treasurer's cash account and check book balance have been reconciled.

TAXES:

The tax commitment has been verified and outstanding taxes have been reconciled. No personal verification has been made, but a detailed list will be published in your town report.

GENERAL:

I would recommend that something be appropriated for abatement and discount of taxes and for the maintenance of the Town Hall building. Nothing has been appropriated for these accounts in the past and therefore there is an overdraft each year.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

Wells, Maine, February 1, 1944

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The School Census of April 1, 1943, showed there were 486 boys and 476 girls, a total of 962 persons between the ages of five and twenty-one years in the town on that date. There were 535 enrolled in the schools at the opening of the fall term, as the following table shows:

Only one change occurred in the list of high school teachers. Miss Marion Davis was hired to succeed Miss Sylvia Poor who resigned to take up other work. Miss Davis has shown interest and skill in the position and is proving to be an efficient teacher for us.

In the elementary grades, Mrs. Nellie Littlefield and Mrs. Helena Rode were transferred to divisions 3 and 5, respectively. Other vacancies were filled by Mrs. Zoe Wormwood at Division 14, Miss Gladys Chamberlain, Miss Rachel Andrews, Miss Christine Anderson, Mrs. Ellen Burt and Mrs. Alice Jackson at Division 2. Mrs. Alice Boston began in the upper intermediate room at Division 5, and finally Mrs. Vivian Lowe was hired to finish the year there. Miss Andrews resigned at Division 2 and Miss Lenora Edgecomb is filling that vacancy. At Division 4 a cadet teacher was hired to help us carry on.

Cadet teachers are girls who are attending Normal School and, instead of doing their teacher training under the attention of the officials of the school, are sent to the field where they do actual teaching under special supervision. These teachers are sent out in units of five teachers. Each unit is under the supervision of a paid, full-time supervisor, which means that each cadet has the assistance of the supervisor for one day each week. The plan is, of course, an emergency idea caused by our war-time needs.

Schools at Division 1 and Division 10 were closed by the committee on petition by a large majority of the parents at both these schools. As a result of this influx of pupils at Division 2 it was necessary to transform the playrooms at this building into class rooms. This expense was unforeseen and accounts for a large part of our overdraft in repairs. Also, approximately \$100.00 was spent for the cafeteria which was not planned at town meeting time.

The committee has exercised care in the expenditure of the funds available and where overdrafts are shown in other accounts the amounts are small.

Our State school fund is increased as a result of higher salaries paid to teachers, thus taking care of the increased expenditures for common and high schools.

May I express my appreciation for the work of the teachers, the help given by the school committee and the assistance of the interested citizens of the town.

Yours respectfully,

JOHN S. CARVER.

REPORT OF THE
Principal of Wells High School

Wells High School
Wells, Maine
February 2, 1944

To: Superintendent John S. Carver.

This year Wells High School began with 105 pupils. Six teachers made up the faculty, Miss Marion Davis having taken the home economics position in place of Miss Poor. There were no other faculty changes.

Our school had the honor of being the scene of the final grand rally of the last war bond drive when our town went far above its quota. The Wells School Band furnished most the entertainment. The boys' basketball squad contributed its services for the U. S. O. benefit in two performances. The Junior Red Cross under Miss Dasakis' directions have been active.

Extra-curricular athletic activity this year includes boys' and girls' basketball and probably boys' baseball. Miss Dasakis is coaching the girls' team, one of the best in the state; the principal is again in charge of boys' basketball; and Mr. Roland Littlefield will direct baseball. Miss Hamilton and Miss Davis take care of the finances for our home games. No six-man football was attempted this year because of a lack of opponents.

The school band functions as usual, having already played at the above-mentioned war bond rally and at a few of our early home basketball games. Later in the year there will be heard the annual joint Wells-Kennebunk concert under Mr. Firths' fine direction.

After last year's excellent performance by the school actors in "The Patsy," it is hoped that another good play will be produced this spring.

The moving-picture machine has again been put to good use with monthly educational and entertainment programs under Mr. Littlefield's supervision.

The school again went over the top with an outstanding performance in the fall magazine sales drive.

Defense stamp sales are made one day each week.

The cafeteria, run under school direction as was done last year, is under the management of Mrs. Helen Murray assisted by Mrs. Evelyn McCullough. Much benefit for the students has come from the products of last summer's canning center, and now the school lunches are partly subsidized by federal funds.

Again, as was done last year, Drs. G. Smith and F. Chase of Ogunquit donated their services for examination of the pupils. Mrs. Grace Wormwood, district nurse, and Miss Weymouth did the laboratory analysis. After the examinations, the pupils found physically able were given work in the physical fitness program. This program was generally carried on as before, except with more emphasis on competitive sports.

I wish to express appreciation to the faculty, to Mr Carver, to the school committee and to all other friends of the school.

Respectfully yours,

(Signed) THOMAS L. MAYNARD.

REPORT OF THE
Commercial Department

Wells High School
Wells, Maine
February 1, 1944

To: Superintendent John S. Carver.

I wish to submit by report for 1943-1944.

The enrollment in the Commercial Department is as follows:

Subject	No. Enrolled
Jr. Bus. Training	22
Typewriting II	7
Typewriting I	21
Bookkeeping	14
Stenography	7

The course in Salesmanship has been added the last semester to the Jr. Bus. Training Class. This is a most interesting subject. In the text book used the student is taught to apply the general principals of selling not only to work of the traveling salesman but also to retailing in all its forms, including retail-store work, filling-station work, and the selling of farm products. The needs of the individual consumer and of society in general are emphasized throughout the text.

I believe the student should benefit from this course.

I wish to express my appreciation to all those connected with the school department.

Respectfully submitted,

(Signed) ELAINE DASAKIS.

REPORT OF THE

Home Economics Department

To Mr. John S. Carver,
Superintendent of Schools:

I wish to submit a report of the Home Economics Department for 1943 and 1944.

Thirty-seven girls were enrolled in September in this course. The general outline has been followed as in past years, but special emphasis on the practical side has been made, necessitated by the war emergencies.

A detailed course in Canning and Preservation of Foods was given in the fall. The girls brought food from home to be canned. They preserved fruits, canned vegetables, made pickles of various kinds and made jellies and fruit butters. Because of the rationing of jellies and fruit butters, the girls made a number of gallons of each for the Cafeteria. This saved numerous ration points and at the same time provided pure jellies for the school sandwiches.

When the canning season was over, the classes spent the remainder of the school half-year in studying meal planning, how to cook all food for the three meals in the day with special emphasis on the highest food value on the least money and the smallest number of ration points. Some of the classes were given practical training in invalid cookery and special diets.

The clothing course is given the last half of the school year. Most of the girls in the Freshmen group have had little sewing experience, therefore their choice of garment making has to be limited. The other classes have a wider choice as their training increases. Because of the limited choice of ready made clothing, it cannot be stressed too much, the importance of knowing how to make all kinds of garments and especially to be able to remodel clothing that

otherwise would be useless. Due to the desire to have new clothing and yet to be able to have them at a lower cost, these girls show the greatest interest in their work. They are most anxious to make new things, to make old ones look like new and to make them well.

It is the desire of all Home Economics teachers to cooperate in the war emergency as much as possible. I feel the best way to do this is in helping young girls to be able to plan, cook and serve attractive meals at the lowest possible cost; also to be able to buy, plan and make an attractive, up-to-the-minute wardrobe. In order to accomplish this, I have had the cooperation of the girls, the parents, Mr. Maynard, the School Committee and you, Mr. Carver. I want to thank all of you who have helped to make this department successful.

Respectfully yours,

(Signed) MARION W. DAVIS.

AUDITOR'S REPORT

Portland, Maine

February 15, 1944

TO THE INHABITANTS OF THE TOWN OF WELLS:

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the Town of Wells for the year ended February 6, 1943.

The financial standing of the town as shown by the comparative balance sheet was correct as of that date to the best of my knowledge and belief.

The following schedules and exhibits were prepared from your town records.

Comments and Recommendations

Exhibit	A—Comparative Balance Sheet
Exhibit	B—Report of Treasurer
Exhibit	C—Valuation and Commitment
Exhibit	D—Statement of Appropriation Accounts
Schedule	1—Reconciliation of Treasurer's Cash Balance
Schedule	2—Uncollected Taxes
Schedule	3—Tax Deeds
Schedule	4—Tax Liens
Schedule	5—Accounts Receivable
Schedule	6—Accounts Payable
Schedule	7—Notes Payable
Schedule	8—Bonds Payable
Schedule	9—Coupons Payable
Schedule	10—Analysis of Change in Debt
Schedule	11—Supplementary Taxes
Schedule	12—Abatements

Respectfully submitted,

E. T. SULLIVAN,

Public Accountant and Auditor.

(Auditor's complete report on file at Selectmen's Office.)

COMMENTS AND RECOMMENDATIONS

CASH:

All cash receipts as reported have been accounted for. The Treasurer's cash account and check book balance have been reconciled.

TAXES:

The tax commitment has been verified and all outstanding taxes have been reconciled. No personal verification has been made, but a detailed list will be published in your town report.

GENERAL:

Due to a reorganization of the Brown Co. a trust fund bond, face value \$500.00 has been recalled, and a new bond issued, face value \$300.00. However, unpaid interest for 1941 and 1942 has been paid in addition to the current year.

I would recommend that the treasurer reconcile his checking account monthly, which has not been done in the past.

Conferences have been held with the pupils, findings of the Inspections and the need of corrections discussed with them, letting them realize the responsibility of the correction. This has brought excellent results, and in turn we are receiving reports from the family physician that they have been consulted, and of the advice given.

The response to the Physical Examinations by the Physicians of the High School pupils has been gratifying and through this we have found conditions that would otherwise have gone undetected until illness had brought it to our attention.

This has been one of the busiest years of the Health Association, for with the school and bedside program there have been many calls from the State Department in conjunction with their programs for Medical Social Service, Crippled Children, Civilian Defense, Emergency Medical Service, the Red Cross for Investigations and Reports as well as frequent contacts with the Army.

May I take this time to thank all who have helped to make this a successful year and have responded so graciously when ever there has been a request for assistance, and to the School Board, Mr. Carver, the teachers, the Selectmen, Dr. Chase, Dr. Smith and the Nursing Committee for their cooperation.

Respectfully submitted,

GRACE E. WORMWOOD, R. N.

\$2,500.00 cash received from B. & M. R. R., to remove Goodwin's Bridge and restore grade is included in check book balance.

Credits up to February 16 inclusive are included in the check book balance while orders charged against the account extend up to order No. 3032 inclusive on January 31, 1945. This leaves all orders drawn since February 1 to the 16th to be deducted from the account as listed in order to show a true check book balance on that date. This circumstance prevails because the Selectmen close their account when 52 warrants (one each week for the year) have been completed while the tax collector keeps his books open beyond that date for the convenience of delinquent taxpayers. The treasurer lists outstanding orders only to the close of the selectmen's books because orders issued after that date must be included in the account for the next year. Receipts by the treasurer from the tax collector have to be listed in the treasurers report for the year closing in order that it may check with the collector's report of money paid to the treasurer.

Nearly all tourist summer visitors entering our State pass Ocean View Cemetery which is conspicuous in our village center on U. S. highway No. 1. Obviously it is for the best interests of citizens and property owners that the cemetery be kept up in a manner that will reflect credit upon the town.

Ocean View Cemetery Corporation has no indebtedness other than the cost of care of cemetery lots carrying perpetual care and the endowment funds which have been donated for corporate purposes by subscribers of such funds for specified purposes.

The Community Trust Company with whom we carry our banking activities is a member of the Federal Deposit Insurance Corporation and our account is thereby insured against loss.

The Investment Committee of the Corporation invests surplus funds which accumulate from time to time in excess of the amount necessary for current expenses. It is expected that the year rate of accumulation of assets will steadily increase. Enlargement, improvement and beautification of the cemetery property will be carried out by the trustees from year to year as the financial standing of the corporation improves.

The custom of having a report of the corporation's financial standing published each year in the annual Town Report for the Town of Wells has been established and it is expected this custom will be continued indefinitely. This report is required because of the appropriation made by the town each year for the care and upkeep of Soldiers Monument and Ocean View Cemetery.

A surety bond is required from the treasurer by the Board of Trustees to insure against misappropriation of the corporation funds and investments.

THE PUBLIC IS INVITED TO ATTEND THE ANNUAL MEETING OF THE CORPORATION HELD ON THE SECOND SATURDAY IN MAY OF EACH YEAR. LOT OWNERS ARE ESPECIALLY URGED TO ATTEND THESE MEETINGS AND PARTICIPATE IN THE DELIBERATIONS.

Suggestions concerning the welfare of the Cemetery Corporation are solicited by the Trustees. Members are not expected to pay dues unless they desire the Corporation to care for burial lots in which they are interested. Gifts, endowment or trust funds are solicited.

The future of the Corporation is insured in no other way than by the continued acquisition of new members. Relatives and friends as well as their children will carry on the work of improvement of the Corporation and the cemetery by reason of their love and respect for those resting in this hallowed and consecrated ground. It is urged that each lot owner and friends of lot owners will consider it their duty to become members of the corporation and to cooperate in raising funds for the maintenance and improvement of the property.

Auditor's Report

February 23, 1945
Kennebunk, Me.

To the Inhabitants of the Town of Wells:

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the Town of Wells, Maine for the year ending February 1, 1945.

The financial standing of the town as shown by the comparative sheet is correct as of that date to the best of my knowledge and belief.

Your Treasurer has set up a schedule of Funded Debt showing for comparison the previous year and the current year that discloses all increases and reductions.

I would recommend acceptance of post dated checks in payment of taxes or other accounts be discontinued.

I also recommend that in the future the Financial condition of Schools include all resources available for the year be included in resources, and all expenditures so reported, thus showing unexpended balance or overdraft to correspond with the recapitulation report.

REPORT OF THE Public Health Nurse

This has been a very busy year, with many new families and an ever shifting population. The Gasoline rationing has made it impossible to follow up on cases and has interfered with checking on Infants and School Children as frequently as one would like; even so there has been close cooperation with the teachers and parents who have been most responsive.

Fortunately there has been no serious epidemic among the children, a few cases of Measles developed but the contacts were isolated and no epidemic resulted. Mumps are the most serious development, and they are just now in full swing after six months of occasional cases.

It is very gratifying that corrections are being made much sooner after defects are reported, thus giving the children the advantage of better physical conditions to meet their problems.

Last April Tuberculin Tests were offered at Schools and to any interested Adults. Two hundred and seven were tested and less than a dozen reacted. Those not already x-rayed will have the opportunity to do so soon. Usually this is done by the State Department with their Portable Machine but as this is not available, arrangements will be made at one of the local Hospitals through the sale of Christmas Seals.

The State Program on Social Diseases has asked for, and received our cooperation in finding cases and in the follow up of those cases reported to us.

It is with regret that I found it necessary to tender my resignation to the Selectmen. Other obligations take much of my time and my personal health made this necessary. I had hoped to be through with my duties by January 1st but have continued on until other arrangements were completed.

I wish at this time to thank everyone that has assisted me in making my program a success. The Doctors who have always given freely of their time, my committee, the Selectmen, the teachers, School Board, and the many others who have been interested helpers.

Respectfully submitted

GRACE E. WORMWOOD, R. N.

REPORT OF THE Superintendent of Schools

Wells, Maine, February 1, 1945

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the Schools of Wells.

The School Census of April 1, 1944, showed there were 488 boys and 468 girls, a total of 956 persons between the ages of five and twenty-one years in the town on that date. There were 592 enrolled in the schools at the opening of the fall term.

There were many new teachers and some transfers last fall. In the high school Mr. Burton W. Irish became principal. His report enumerates the list of new teachers and the changes in his school.

For the elementary grades, Mrs. Winnifred Hickman is teaching the 4th and 5th grade room at Ogunquit; Mrs. Ruth Burnell returned to Division 4 where she was a cadet teacher last year; Mrs. Sybilla White was elected at Division 3, Miss Iris Greenier at Division 9, and Miss Clara Bigelow at Division 16. Mrs. Wormwood and Mrs. Sayward were transferred each to the school taught by the other last year, so now Mrs. Wormwood is at Division 6 and Mrs. Sayward at Division 14. Mrs. Burt started as the primary teacher at Wells Corner and when she resigned Miss Rose Witham was hired. I might add that Miss Greenier has resigned at Division 9 and at the present time Mrs. Oscar Martin has been hired to complete the school year.

For the grammar room at Division 2, the most difficult position, I believe, in your elementary grades, Miss Nora Malkson was elected to be principal of the six-room building there. She has justified her selection by the committee and is carrying on her work in a thoroughly professional and efficient manner.

Not all the needed repairs were made due to lack of labor and some materials. The interior of the room at Division 3 was completely refinished. Some roofs need to be reshingled and possibly may be cared for next summer.

The floor of the gymnasium at the high school was given two coats of varnish and some of the basement walls

refinished. The driveways also were surfaced and tarred. Another coat of the tar should leave them in good condition for the future.

We are having obstacles to overcome in our work of education as well as in the ordinary matters of living. I think there is a common realization of the difficulties and an understanding that, until better times, improvements are slow and hard to obtain.

Respectfully yours,

JOHN S. CARVER

REPORT OF THE
Principal of Wells High School

February 1, 1945

To: Superintendent John S. Carver:

The High School enrollment at the beginning of the school year totalled 114, an increase of about ten over last year. As last year, six teachers composed the faculty, there being two changes besides the Principal. Mrs. Eileen Press took the place of Miss Hamilton and Mr. John H. Fahey took over the commercial work formerly in charge of Miss Dasakis.

The school undertook the usual magazine sales drive early in the fall for the benefit of the Athletic Association, and reached a figure of \$712.00 in total sales.

No football was attempted during the fall, due to prevailing conditions, but both girls' and boys' basketball are being carried on this winter. Mr. Russell Bridges has kindly volunteered his services as coach of the boys, and the principal has taken charge of the girls. Miss Freda Winn of last year's team has been very helpful with the girls. We expect to have a baseball team in the spring, with Mr. Littlefield again in charge.

The school band has been practising faithfully under the able leadership of Mr. Firth in preparation for the annual joint concert with Kennebunk. The band was invited to play at a Bond Rally at Old Orchard during the Sixth War Loan. I have received many expressions of appreciation of its services at that time.

The pupils of the school sold a total of \$16,000 worth of bonds during the campaign. The War Loan Committee very generously offered a \$25.00 Bond as a prize for the best letter on "Why Buy a War Bond"; also a similar prize for the most individual sales and for the greatest sales in dollars.

Defense stamps are sold in all home rooms one day each week, and have shown a steady increase in total average sales since the beginning of the year.

The pupils have enrolled 100 per cent in the Junior Red Cross under the direction of Mr. Fahey.

The school has also taken active part in the March of Dimes Campaign just concluded.

Under the direction of Mr. Littlefield, a monthly program of motion pictures has been arranged.

The cafeteria, under the control of the school as last year, is again under the efficient management of Mrs. Helen Murray. Her assistant this year is Mrs. Madeline Roberts. We are able to give the students a hot and nourishing lunch each day, at a small cost, due to partial subsidy by Federal funds.

Mrs. Grace Wormwood, District Nurse, has examined all pupils, and remedial measures are being taken to correct defects revealed by these examinations.

The scholastic attainment of the pupils, as shown by the half-year marks just compiled, is on the whole satisfactory. We shall endeavor to improve on this record during the remainder of the year.

There are a total of 82 pupils enrolled in the Commercial Department, as follows:

Subject	Number Enrolled
Jr. Business Training	21
Typewriting	27
Stenography	19
Bookkeeping	15

A system of Awards and Honors as Provided by the Gregg Publishing Company has proved of considerable help in maintaining the standards of this Department.

The Home Economics Course has enrolled a total of 32 pupils. This course is being carried on in the same manner as last year.

It will be a source of considerable satisfaction when the Manual Training Course is again available to the boys

so that they may have a program comparable to the Domestic Arts for the girls.

I have received the utmost co-operation from the faculty, school committee, and superintendent, and wish to express my appreciation to them, as well as to all friends of the school with whom I have come in contact.

Respectfully yours,

BURTON W. IRISH,
Principal

"Lest We Forget"

To the men and women of Wells, who served so nobly in World War II, in order to preserve their homes, and country, let us thank our Father that many through His wisdom, and guidance, have been safely returned to us:—To those who have paid the supreme sacrifice, let us recognize and honor their names today, by having a moment of silent prayer, and may God who knows, and understands all, be especially near to their loved ones, guarding them tenderly in these great hours of trial.

Auditor's Report

February 27, 1946
Kennebunk, Me.

To the Inhabitants of the Town of Wells—

This is to certify that I have audited the accounts of the selectmen, treasurer, and collector of taxes for the town of Wells, Maine for the year ending 1946.

The financial standing of the town, as shown by the comparative sheet, is correct as of that date, to the best of my knowledge and belief. The schedule as set up by your treasurer showing comparison of the previous and present years, discloses all increases and reductions.

As recommended in 1945, no post-dated checks have been accepted.

I recommend that loose-leaf check and voucher system be adopted, in place of the present check book system, as this would not only be a saving to the town but would save a lot of bookkeeping in the selectman's office.

Respectfully submitted,

HARRY L. RANKIN
Public Accountant and Auditor

REPORT OF THE Public Health Nurse

To the Selectmen and the People of the Town of Wells:

The usual generalized program of Nursing Service has been continued throughout the year. Due to the kindness and help of Mrs. Grace Wormwood, it has been possible to carry the work along with little interruption.

In May, a Vaccination Clinic for prevention of small-pox was held with twenty-two children being vaccinated. Another will be arranged this spring, with pre-school children especially in mind.

During July and August, the six weeks course in Public Health Nursing at Simmons College in Boston, was attended and found most valuable. The nursing services were resumed over the weekends throughout this period.

September began another school year with an enrollment of four hundred and nine students in the various schools, and with few exceptions, these have been given the routine Health examination and frequent inspections. All defects found have been reported to parents with many already having been corrected and others to be made as soon as appointments are available.

We have been fortunately free from most communicable diseases. Those being reported are:

Mumps	-----	24
Chickenpox	-----	14
Measles	-----	1
Scarlet Fever	-----	1

However, Pediculosis and Scabies and Impetigo reappear among us all too frequently. Due to the splendid cooperation of the teachers, we are able to find these cases early.

The Wells Health Association is sponsoring an Immunization Program for the protection against Diphtheria and Whooping Cough. To date, two hundred and ten children have been immunized. This is an excellent project and greatly appreciated.

The Positive Tuberculin Tests, which were done last winter, will be x-rayed in March by the State Department's portable machine. Plans are also underway for Tuberculin Patch Tests in the immediate future.

Various clinics, Orthopedic, Pediatric, and Cripple Children's have been attended with patients. Also Two institutes have been attended on Tuberculosis and Communicable Diseases which have been sponsored by the State Department of Health, at Augusta, Maine.

At this time, I wish to extend my gratitude to all who have contributed in any way to the success of our community health program. Especially, to the Selectmen, School Committee, Teachers, Officers and Lay Committee of Wells Health Association, Board of Health, American Legion Auxillary, Parent-Teacher's Association, Parent's Club, Moody Improvement League, Girl Scouts, and above all to the doctors, who have given us so freely and willingly of their busy days.

SUSAN M. FORTUINE, R. N.

REPORT OF THE
Superintendent of Schools

Wells, Maine, February 1, 1946

To the Superintending School Committee of Wells, Maine:

I herewith submit to you my report of the schools of Wells.

The School Census of April 1, 1945, showed there were 484 boys and 471 girls, a total of 955 persons between the ages of five and twenty-one years in the town on that date. There were 553 pupils enrolled in the schools at the opening of the fall term.

There were a few changes in our elementary teaching group. Miss Pauline Moulton is teacher of the second grade room at Division 2, and Mrs. Althine Wyman is teaching at Division 4. Mrs. Evelyn Parker is now teaching in the fourth and fifth grade room at the Ogunquit School. We are glad to welcome back Mrs. Robie Littlefield as teacher. She has taught in Wells a number of years and is doing her usual high grade of work this year at Division 3.

We have found it fully as difficult this year to have repair work done. Many authorized repairs were not carried out because of the failure to find available labor. Even attempts to hire workers from an adjoining town have failed. In addition to these many postponed requirements, new needs have arisen which mean a much larger amount of money is necessary.

It would seem that any attempt to improve the rural schools as completely as is stated in the report from the State Department of Health and Sanitation would not give suitable returns to the children of Wells and to the tax payers. An equal amount of money used toward the construction of a new modern building which would accommodate the pupils from the rural schools would, I believe, be better.

Probable crowding of the school at Ogunquit is approaching. In another year there will be nine grades at that school. There are now two grades in each of the four rooms. Whether an addition to the Division 5 building will be necessary or some kind of reclassification of the pupils

who are to attend there, is a problem for the next year or definitely in preparation for the school year 1947-1948.

Although the war is over shortages still exist. Book orders are delayed, sometimes as much as four months. These difficulties are slowly being overcome and we hope that next year will see even greater improvement.

Respectfully submitted,

JOHN S. CARVER

REPORT OF THE
Principal of Wells High School

January 24, 1945

To: Superintendent John S. Carver:

The High School enrollment has increased from last year's total of 114, to 138 pupils this year. There were two changes in the faculty besides the principalship. Mr. Harvey Bixby took the place of Mr. Littlefield and Mr. Munroe Bean has returned from Army Service to re-open the Manual Training department.

There were no Fall athletic activities but both boys and girls basketball are being carried on this Winter with Mr. Bixby as coach. We will have baseball and track this Spring and hope to resume football in the Fall.

The School Band has been playing at the home basketball games this Winter and their services have been greatly appreciated. In addition to the yearly concert and Memorial Day parade, the band will enter the May music festival at Gloucester, Massachusetts, in competition with bands from all New England.

The Cafeteria is under the efficient management of Mrs. Helen Murray, assisted by Mrs. Helene Gibson. All governmental regulations regarding menus and nutritional requirements are strictly adhered to, and in return, the lunches are subsidized by Federal Funds. We are, therefore, able to provide the students with a hot, nourishing meal each day at small cost to them.

In the Home Economics department, under the direction of Miss Marion Davis, there is an enrollment of 48 girls. The first half of the year is given to cookery; the

last half to sewing. In the early Fall, five weeks were spent in canning. The girls canned a total of 1600 cans, a portion of which went to the cafeteria for lunches. This year there are classes in First Aid, Home Management, House Furnishing, Consumer Buying, Child Development, and Costume Designing.

The Manual Training shop was opened in October having been closed for the past three years. The enrollment is 45 out of the school's total of 59 boys. The course this year is on an elementary basis due to lack of training of the boys now in school. We are, however, carrying on with the mechanical drawing, the woodwork, and the metal work as best we can with the limited materials at our disposal. It is hoped that other media can added so that an even more diversified course may be offered next year.

Miss Ethel Weymouth is in charge of Science and Mathematics and there is an enrollment of 135 students in this Department. Courses offered are: General Mathematics, Algebra I & II, Mathematics for Radio, General Science, Chemistry, and Trigonometry. There are 26 students taking Chemistry although the laboratory is equipped for only 16, and we are trying to provide the best laboratory training possible under the circumstances. At graduation we will present the Bausch and Lomb Honorary Science award to the student with the best academic record in biology, physics, chemistry, and mathematics.

At the present time there is an enrollment of 55 in the Commercial department. Certificates are given for superior work in shorthand, typewriting, and bookkeeping. These certificates serve as an incentive for the pupils to do better work. Last Spring the students in both the shorthand and bookkeeping classes participated in a nation-wide contest and received Honorable Mention certificates for the superior work done. As a result of this contest we feel that our Commercial Department here at Wells High School is on a par with other high schools in the country.

I wish to express my appreciation to the faculty, school committee, and superintendent, for the fine cooperation they have extended to me during the time I have been here.

Respectfully yours,

NORMAN F. HOLDER,
Principal

FOURTEENTH:—To see what sum of money the town will vote to raise, grant and appropriate for water rents for schools for the ensuing year.

FIFTEENTH:—To see what sum of money the town will vote to raise, grant and appropriate for insurance of school buildings for the ensuing year.

SIXTEENTH:—To see what sum of money the town will vote to raise, grant and appropriate to maintain domestic arts course in the high school for the ensuing year.

SEVENTEENTH:—To see what sum of money the town will vote to raise, grant and appropriate for the manual arts course in the high school for the ensuing year.

EIGHTEENTH:—To see if the town will vote to raise, grant and appropriate the sum of four hundred dollars for the support of the school band, the money to be spent by the school committee.

NINETEENTH:—To see if the town will vote to raise, a sum of money to build cellars, install flush toilets, lights, running water, and central heat in all rural schools.

TWENTIETH:—To see if the town will vote to build a four room modern school in the Southwest District for the purpose of consolidating schools numbers three, four, six and nine and raise a sum of money sufficient for the same.

TWENTY-FIRST:—To see if the town will vote to build an addition to the present elementary school located on the High School site of sufficient capacity to house and accommodate pupils of the elementary schools. Same to be of the same construction as the present building and equipped to meet the requirements of the State law and any regulations of the State Board of Education relative to health and sanitation. Appoint a building Committee to act in con-

junction with the School Committee and the board of Selectmen to supervise the construction of said school building. To instruct the Selectmen to procure plans and specifications for such building and to do all other necessary acts in the preparation and construction of same. To raise grant and appropriate sufficient sum of money therefor.

TWENTY-SECOND:—Whereas we the undersigned believe that rather than raise a large sum of money for the repair of rural schools of Wells which may still be condemned as per order of the State Board of Health in a letter to Frank Hatch February 11, 1946, we would be far ahead with a consolidated school.

Therefore we ask to see if the Town of Wells will vote to raise the sum of Sixty Thousand Dollars (\$60,000.00) and that the proper government agency be contacted for their proportionate share of such building and that these sums be added to the sum raised by the town to erect a consolidated school at Eldredge Corner school site and that if such sums are raised the School Board and their Committees will erect such a building as soon as possible to take care of the children in districts numbers 3-4-6 and 9 now in commission or any other pupils the board may see fit to send to such a school and that proper adequate transportation be supplied for such a school and that the young pupils be not left at this school to wait for the upper classes and whereas we believe this will elevate the teaching in the schools of the Town of Wells and also afford a better education of the pupils of the town. On petition of A. J. Howard and twenty-six others.

TWENTY-THIRD:—Where we believe this to be the only town or city in the State of Maine to allow a member of the School Board or Committee to be al-

lowed in a capacity pertaining to the maintenance of their schools, we ask that the following article be inserted in the town warrant for the next annual town meeting of the Town of Wells, Maine.

To see if the town will vote to enact the following as an ordinance of the Town of Wells to have full force and effect as such; **ORDINANCE.** The School Board or School Committee of the Town of Wells, Me. shall not at any time employ any member or members of such boards or committee to serve or work for pay in any activity essential to the management, operation of any schools or school buildings in the Town of Wells and no member of the School Board or School Committee shall be eligible to serve or work with or without pay in or about the schools or school buildings of the Town of Wells or to perform any duties in connection therewith save those usually and ordinary duties established by law with reference to such school boards or school committees.

All engagements, contracts and agreements made in violation of this Ordinance shall be null and void, and no work or services rendered in violation of these provisions shall be paid for from any funds raised and appropriated by the Town of Wells, Me. On petition of A. J. Howard and twenty-six others.

TWENTY-FOURTH:—To see if the Town will vote to instruct its board of Selectmen, its School Board and all parties charged with any authority therewith to make the High School Assembly Hall in Wells High available for the use of organizations and groups of the Town of Wells for the purpose of entertainment, recreation and for educational purposes, patriotic and social functions and that any charges made for such use shall be reasonable and based on the cost to the Town of making said hall available for such

purposes. On petition of A. J. Howard and twenty-eight others.

TWENTY-FIFTH:—To see if the Town will vote to raise by assessment, grant and appropriate five hundred dollars for spraying approximately three thousand shade trees along the principal road side in the Town of Wells for the ensuing year.

Auditor's Report

February 20, 1947
Kennebunk, Me.

To the inhabitants of the Town of Wells—

This is to certify that I have audited the accounts of the selectmen, treasurer, and collector of taxes for the Town of Wells, Maine for the year ending 1947.

The financial standing of the town, as shown by the comparative sheet, is correct as of that date, to the best of my knowledge and belief. The schedule as set up by your treasurer showing comparison of the previous and present years, discloses all increases and reductions.

As recommended previously, no post-dated checks have been accepted.

I again recommend that loose-leaf check and voucher system be adopted, in place of the present check book system, as this would not only be a saving to the town but would save a lot of bookkeeping in the selectmen's office.

Respectfully submitted,

HARRY L. RANKIN

Public Accountant and Auditor

REPORT OF THE Public Health Nurse

To the Selectmen and People of the Town of Wells:

The past year has been both busy and constructive for the Public Health Nursing Program.

In January, 1945, the Ogunquit branch of the American Red Cross decided to sponsor a Child Health Conference for the Infants and Pre-school children of the village of Ogunquit. That is, they pay the Physician in charge, furnish supplies and equipment to maintain the project.

These conferences are bi-monthly and are held in the Baptist Church Vestry.

In April the Wells Health Association undertook the same program for the children of Wells and its outlying districts.

The conference here is also bi-monthly and is held in the Nurses Office in the Grammar school building.

The purpose of these conferences is to help parents recognize better methods of child care and to provide for every child not under the care of a private physician, continuous health supervision from birth to school age.

They are organized for preventive purposes only. A definite program of Immunization against Diphtheria and Whooping Cough is being carried out. Vaccination for Smallpox is also given.

To date there are 80 infants and pre-school children enrolled, many being regular attendants.

Through the Pre-natal Service an effort has been made to contact all expectant mothers to explain the program and to offer the services of the nurse in whatever capacity she might be needed. In 1946 there were but two home deliveries.

Health Supervision in the schools comprises a large part of the General program.

This year routine weighing and measuring was done by the various teachers. They also conducted the first vision tests, referring only those of defective vision to the nurse. Consequently many more corrections are being done early in the year. Since September there have been 18 corrections of vision, and others have appointments in the near future.

Because of the generosity of the various Organizations of the town, needy children are provided with glasses and other corrective work without delay.

The hearing tests for all pupils above the 4th grade are being done by use of an Audiometer loaned by the Maine Public Health Organization. This test is more satisfactory and accurate than the whisper test.

There have been Clinics for Immunization against Diphtheria held for the school children at Wells, Wells Branch and Highpine and there are plans for a clinic for District No. 9 now. A total of 139 school children have been immunized. There are many older children, especially High school students having been immunized earlier, who should now have a "booster" shot.

Vaccination against Smallpox will be offered all schools and any adults in the spring.

The patch tests for Tuberculosis are also part of the school Health program and are still being done. This year it was hoped to patch test every child from the 4th grade through High school. Of 300 or more tests already applied only 8 have proven to be positive. These will be X-rayed in March at the State X-ray Clinic in Biddeford. This clinic is also given in September and is available to all by the sale of Christmas seals.

There has been very little communicable disease among the school children. This is due in part to the prompt reporting of cases by parents or teacher and removal from school within a specified limit of days all of the possibly exposed children.

The usual service of bedside nursing for the Acutely and Chronically ill patients has been carried out.

The Wells Health Association has been very active this last year and a much larger scope of activities is planned for the months ahead. One feature is to bring to the Public by way of open meetings, a series of discussions of various aspects of health and diseases. Outside speakers will be presented at these meetings.

At this time I wish to thank all who have assisted in any way to make this a successful year for the Public Health Nursing Program. I'm especially grateful to the Teaching Staff throughout the town and the Superintendent of Schools for their splendid understanding and cooperation in the School Health work. Also the School Committee, The Selectmen, Wells Health Association, Board of Health, Parent Teachers Organization, Parents Club, American Red

Cross both Wells and Ogunquit branches, Salvation Army, Young Adult Groups of Ogunquit, Baptist Church, American Legion, Auxiliary, Girl Scouts and last but far from least, the doctors who have helped in so many ways.

Respectfully submitted,

SUSAN M. FORTUINE, R. N.

REPORT OF THE
Principal of Wells High School

February 1, 1947

Superintendent Raymond B. Steward:

The High School enrollment has decreased from last year's total of 138 to 128 pupils. There were two changes in the faculty: Miss Marion Freeman took the place of Mrs. Press in the Language Department and Miss Pauline Sommer replaced Mr. Fahey in the Commercial Department.

During the fall football was resumed on a small scale and both boys and girls had basketball teams during the winter term. In the spring we will have baseball and track for the boys, and the girls will have a softball team.

The Cafeteria, under the efficient management of Mrs. Helene Gibson, assisted by Mrs. Jennie Sinclair, has maintained the same high standard of previous years. Mr. Carson, State Supervisor of School Lunch Programs, on a recent visit spoke very highly of our facilities and program.

The Manual Training Department, under the leadership of Mr. Bean, has an enrollment of 45 out of the school's 54 boys. The Freshmen and Sophomore group concentrated on the use of hand and power tools, respectively, in the construction of wood and metal projects. The Junior and Senior groups have made projects which involve the power wood work equipment and also power metal working equipment. It is a pleasure to be able to report that another injury-free year has passed and our shop safety record still stands.

The Home Economic Courses, directed by Miss Marion Davis, include cooking; food for better health; care and understanding of children; wise use of time and money; home planning; clothing and personal appearance; and how to live with yourself and others. It is the aim of these courses to make for better personal and home life for each individual, based upon the interests and needs of each particular group.

Miss Pauline Sommer has an enrollment of 64 in the Commercial Department. Double-entry and personal book-keeping is taught and certificates will be given for superior work at the completion of the course. In Shorthand I and Shorthand II, as well as in Typewriting, certificates and

pins will be awarded for superior work. These awards serve as a stimulus for proficient work.

Miss Ethel Weymouth is in charge of Science and Mathematics and has an enrollment of 128 in this department. Courses offered this year are: General Science; Basic Mathematics; Algebra I; Algebra II; physics; Trigonometry and Plane Geometry.

A group of civic minded town's people inaugurated a Night School Program this fall at the High School. Over 800 questionnaires were sent out and 102 persons signified a desire to enroll in evening classes. A total of 92 persons attended these sessions and 49 completed the ten-week program. The following courses were offered: Shop, Cooking, Sewing, Rug Making, Typewriting, Shorthand, Bookkeeping, French, English, Spanish, History, Biology Mathematics, and Current Events. Many persons have expressed a desire to repeat a similar program next fall.

I wish to express my appreciaiton to the faculty, school committee, and superintendent for the fine cooperation they have extended to me during the past year.

Respectfully yours,

NORMAN F. HOLDER,

Principal

REPORT OF THE Superintendent of Schools

To the Superintending School Committee
and the Citizens of the Town of Wells:

I submit, herewith, my first annual report as required
by law:

Totals	66	51	51	40	58	50-	56	54	37	36	30	25	30	584

As you will notice from the above tabulation, there is again a substantial increase in the number of pupils in the schools this year. To complicate the problem, it was impossible to find a teacher for Number Three which threw an overload into the Village School. Not until the Saturday before the opening of school was a teacher found for Number Four which might have made conditions more serious.

Consolidation of schools with the attendant closing of rural schools is the order of the day, but before consolidation takes place, provisions must first be made for the pupils from the closed schools. It must have been evident for some time that some plan for enlargement at Wells Village and Ogunquit Village must be made. Supt. Carver has called it to your attention as far back as 1944. The time has now arrived for action. There will be nine grades at Ogunquit next year, and if it is necessary to close any more rural schools for lack of teachers, the situation will be serious.

There were several changes on the staff. At the high school Marion Freeman, one of our own citizens, filled the position resigned by Mrs. Press. When Mr. Fahey resigned

the Commercial Department, Miss Pauline Sommers of Auburn filled the position. At Wells Village, Helen Boyden of Eastport took the third and fourth grade room resigned by Miss DeCourcy, and Thelma Plummer of Lovell took Miss Witham's place.

To take care of the overcrowded situation, another primary class was formed and Ruth Bradeen of Old Orchard took charge of the room. To make a room for this added class, Miss Edegcomb's class was moved over into a vacant room in the high school. While this solved the problem of a classroom, the room is too small and is far from convenient.

As reported above, it was impossible to find a teacher for Number Three and a similar situation existed at Number Four until the Saturday before the fall term opened. Clythro Staples of Kennebunk, recently released from the WAC, too late to enter Gorham State Teachers' College, accepted the position. Miss Alene Hinckley of Sanford took charge of the fourth and fifth grades at Ogunquit Village. Mrs. Leona Sayward was transferred from Number Fourteen to Number Sixteen to fill the vacancy caused by the resignation of Miss Bigelow. Mrs. Olive Brown of Wilmington, Connecticut, filled the position at Number Fourteen. Mrs. Martin resigned at Number Nine and Mrs. Vivian Lowe, one of our former teachers, filled the position.

A hot lunch program was started at the Ogunquit School this year under the sponsorship of the Ogunquit Parents' Club. The program is operating well and the service is appreciated by pupils and parents. Mr. Carson, State Supervisor of Lunch Programs, from the Department of Education, reports a recent visit and speaks highly of both our town cafeterias.

It has been a serious problem to get books and some kinds of materials this year. This has thrown an added burden on the teachers for the classes have been carried on without adequate tools. At the time of this report, chairs ordered in September to provide for the increase in primary grades at the Wells Village have not been received.

A change of administration is always confusing and I wish to thank all who have helped to make the change go smoothly. I wish to particularly thank Supt. Carver for his co-operation and assistance.

Respectfully submitted,

RAYMAND B. STEWARD,

Superintendent of Schools

Warrant And Budget Committee Report For Annual Town Meeting

To Frank D. Hatch, a constable in the Town of Wells, County of York and State of Maine.'

York, ss.

Greeting:

In the name of the State of Maine you are hereby required to notify and warn the inhabitants of the Town of Wells, qualified by law to vote in Town affairs to meet in the Town Hall, in the Town of Wells on Monday, the tenth day of March A. D. 1947, at nine o'clock in the forenoon, then and there to act on the following articles:

The Budget Committee respectfully hopes that the voters of the Town will recognize we have given careful consideration to each and every request for appropriations and have found it necessary to recommend reduction and in some cases postponement of the amounts requested.

Our recommendations call for a committment of \$244,273.40 and this is the highest in the towns' history. To provide this amount will require a tax rate of approximately \$72.00 per thousand dollars of valuation. This is an increase of 40 per cent. People paying a tax of \$100.00 in 1946 will pay \$140.00 in 1947. A large part of the \$55,277.38 required to pay on indebtedness this year was caused by appropriations made at special town meetings and by overdrafts. In addition to this amount we are committed to issue notes totalling \$24,548.36 to pay for three bridges and a fire truck already voted.

The Budget Committee fully realizes the Town does not have to follow its recommendations but we

ask you to bear in mind that in exceeding any recommendations of ours you will increase the contemplated tax rate of \$72.00 per thousand. We think that even this rate of taxation will not only be burdensome to many but will tend to discourage people from buying property or from building here and this will check the growth and prosperity of the Town. Excessive taxes can injure the Town more than certain of the expenditures asked for can help, desirable though they may seem to be.

We recommend the Town indebtedness be paid off as fast as is possible in order to reduce interest charges, that we eliminate unnecessary expenditures so as to improve the financial condition of the Town and thereby enable us to improve our schools and all other departments and to pay higher salaries to teachers.

FIRST:—To choose a Moderator to preside at said meeting.

SECOND:—To choose a Town Clerk, three Selectmen, Assessors and Overseers of the poor, a Town Treasurer, Collector of Taxes, one member of the Superintending School Committee for three years, one Road Commissioner for the ensuing year, and all other necessary Town Officers for the year ensuing.
